Dark Operations

Warhammer 40000 Campaign

## What is Wargasm?

Wargasm is an evening gaming event where we enjoy a bunch of interconnected scenarios spanning several tables. This year you will be taking part in a series of team games where the actions you take on your table can aide your allies, in their games, in real time.

## Why Wargasm?

We know that there are loads of events that occur over the year and that your time is limited. We focus on fun and entertaining events that allow you to do something beyond the ordinary. You will be challenged not only by your opponents, but by the scenarios themselves. All within a great environment where we all look after each other as fellow players.

## Costs:

The cost for the event is \$35.

If you registered last year and paid full price (\$60) before we moved venues to Imaginary Wars, your ticket cost is \$10.

Beer Pints will be made available for \$4 ea.

Food will be provided, please let us know if you have any allergies.

### Expectations:

The enjoyment of your team mate and opposing players is your responsibility. Have fun, have a beverage and make friends. This is not a tournament, and there are no prizes for winning.

### List Composition:

Your list for this event will consist of a Core Force and up to three sideboard choices. A sideboard choice is picked after you've had time to look at the scenario and talk to your teammate. It is intended to give you greater tactical flexibility given the constantly changing battlefields.

Your army for any given game will consist of your Core 1250 point force plus one of your 250 point Sideboard Choices.

### At any given time:

- Your core list + your sideboard constitutes a Battleforged list (no unbound lists).
- You may use allies as per the Rule Book – Keep it fluffy please
- Maximum of three detachments
- No named characters
- No units with the Titanic key word
- Max power level of all units is 15
- One unit may be taken with a max power level of 19

Hints for construction:

When building your lists, be aware that the nature of the Dark Operations scenarios will find units working on their own with minimal support, or in total isolation. They may find themselves greatly outnumbered, stalling for time, used as bait to draw out enemy forces or you may find yourself in the position of counter assaulting an enemy force.

Rapid response units will also be key. Ensuring that you'll be able to rapidly deploy or redeploy to the changing environs of a special operations theatre, you'll want to make sure you have a healthy amount of transports, or alternative methods of deploying.
